WHOLESALE WALKOUT OF STUDENTS AT UNIVERSITY

Sympathizers With Suspended Sophomores Manifest Displeasure at Action of Faculty.

Editor Pratt Becomes Alarmed and Causes the Arrest of Eleven of His Persecutors.

The cabbage-throwing episode that has plunged affairs into such a tangle at the state university resulted yesterday in about 100 pupils leaving the school temporarily, and, later in the day, in a circus performance over the arrest of eleven students upon warrants charging them with assault and battery upon Editor Pratt. The affairs of the day started when the faculty made known its refusal to reinstate the suspended sophomores. The student body wanted to hold a meeting on the campus, but they were denied the privilege. As a result, nearly all of the sophomores and some fifty or sixty other students walked out and refused to attend any of the classes.

An effort was made to hold a meet.

An effort was made to hold a meetan effort was made to hold a meeting for the purpose of inducing the whole school to halt, but it was futile, and it will be held this morning off the campus. It is expected by the promoters that nearly all of the college students will attend this meeting and walk out with those who have already bolted.

Pratt Is Frightened.

This action on the part of Pratt was unknown to the students until late in the afternoon. But yesterday morning an indication of what might be expected appeared on the bulletin board at the university in the shape of a notice from President Kingsbury to the effect that no interference with the personal rights of any student on the part of any other student or students would be tolerated. The students took this as an indication that Pratt was getting frightened and they manufactured a big blunderbus of gas pipe and presented it to him along with a request for his resignation from the editorial chair.

Later in the afternoon a crowd of students who bolted met on Main and Second South streets and learned that they phad come to give themselves up. The warrants were in the hands of the sheriff, who was at once notified. The students filed into the officers quarters at the police station and announced that they had come to give themselves up. Arrest of Sophomores.

During the day Editor Pratt of the Chronicle swore out warrants against eleven sophomores, who, he claims, were involved in the attempted harrent of the boys, learning of his action, met down town and marched to the police station and gave themselves up to the sheriff, who was sent for. Then they made their escape and later resurrendered.

In lock-step they marched through town to the county jail, shouting sophomore yells and singing. They were finally released with orders to appear in court this afterneon to answer the charges against them. The boys all are willing to face the court and they propose going armed with shears, so that if Editor Pratt shows up to prosecute them they may have a chance at his locks. The whole school is in a general state of hilarity over the affair and almost any kind of demonstration may be expected at any time. The feature of the day's happenings was the arrest of the students whom Editor Pratt wants put under bonds to keep the peace. The editor, it is claimed, has grave fears for the safety of his locks, and upon the advice of some of his friends he went before the county attorney and swore out warrants for Milan Crandall. that meeting to bolt the whole student body. From the general expression of feeling it is likely that the meeting will succeed in its purpose.

Made Their Escape.

There were about twenty in the crowd and one managed to get arrested under some other name on the warrant. Then the fun began. The deputies went out to hunt for Judge Diehit to hold a special session of court. The "prisoners" amused themselves by ordering bean soup for supper and making puns at the expense of the officers, until they suddenly discovered that they were unguarded.

"Let's escape!" shouted some one. "It's a go!" shouted everybody, and a break was made for one of the side windows. Up it went and through it the boys scrambled. Stealthily they crawled around the rear, and, according to previous arrangements, they had the deputies notified that they had escaped. While the deputies were in through the back door singing "We are the Sophomores."

Hat a quiet meeting of the students a day or two ago a request for the resignation of Editor Pratt was drafted, and it has been presented to him. The students say that if he does not take the hint and step down from the editorial chair, they will see if they can't slip the chair from under him.

President Kingsbury when seen yesterday and asked about the bolting of the students, said that he did not know many had left, but thought only a few sympathizers had gone out. Asked if the faculty would take the matter up, he replied that he did not know. In regard to whether or not the students who bolted would lose that that would rest with the individual professors. President Kingsbury also denied that he had refused to allow the student body to hold a meeting of the students and and it has been presented to him.
